

P1 TROOP PARACHUTE

- Low sink rate & excellent stability thanks to its unique canopy design.
- Extended service life with new-generation, high-durability fabric and suspension cords.
- Ergonomic harness-container system engineered for a high level of in-flight comfort.
- Center-mounted semi-soft reserve handle; pilot chutes suitable for both low- and high-speed; SLS/static-line compatible; Cypres® AAD ready.
- Ultra-compact, low-bulk, lightweight carry bag with an integrated back-of-container storage pocket.
